## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-2 are rejected under 35 U.S.C. 102(e) as being anticipated by Blatter (US 6,265,002). Blatter discloses an apparatus for making and filling a bag with a strippable seal comprising a pair of thermal sealing rollers 310 with annular projections 512 for imparting a wavelike or zig-zag shape upon the bag material passing between a nip for conveyance; see figures 5A–6D.

### *Response to Arguments*

3. Applicant's arguments with respect to claims 1 and 2 have been considered but are not persuasive. The amplitude of the wavelike/zig-zag shape of Blatter is substantially in the conveying direction; see figure 4c.

Furthermore, note that limitations directed towards the article worked upon do not limit an apparatus claim; see MPEP 2115. Likewise, limitations towards the intended use of the apparatus are not discernable over the prior art if there are no structural differences; see MPEP 2114.

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Menard discloses producing wavelike patterns on webs; see figure 5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action.

5. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher R Harmon whose telephone number is 703-308-8643. The examiner can normally be reached on Monday-Thursday from 8-6.
